

Introducing the RM-WR1, a Bluetooth® Low Energy-compatible Wireless Remote Control Featuring Dustproof and Splashproof Construction

Tokyo, Japan, February 15, 2022 - OM Digital Solutions Corporation (Representative Director and CEO: Shigemi Sugimoto) is pleased to announce the RM-WR1 Wireless Remote Control. This Bluetooth® Low Energy-compatible device enables wireless shooting¹, and is scheduled to go on sale in March 2022. Pairing this remote with the OM SYSTEM OM-1 interchangeable lens camera that was announced today allows users to wirelessly operate the camera within five meters. It enables remote shutter release, control of autofocus, image display control between still images and videos, as well as release lock during long exposures. This remote control is equipped with the IP57² splashproof and dustproof performance, for peace of mind in any shooting environment. It helps reduce blur caused by movement while pressing the shutter button during macro, landscape and night star photography. The RM-WR1 can also be used as a wired remote control when connected using the cable included with Micro Four Thirds camera models³ equipped with a compatible remote cable terminal, such as the Olympus OM-D E-M1X and the Olympus OM-D E-M1 Mark III.

RM-WR1 Wireless Remote Control
